IN 5 SECONDS TO A PERFECT PRINT - OUR PRINTABLE SPORTSFILM IS IDEAL FOR PHOTO-REALISTIC IMAGES, OR TONES, TO CREATE MULTI-COLORED DESIGNS.

This is a polyurethane film for full-color graphics with total opacity for heat transfer application. It is ideal for printing high quality, 4-color graphics and for print & cut because of its polyester carrier. The material is white, thin, easy to weed and cut and needs just 5 sec. application time. It dries fast to reduce downtime before heat application. When printed with an eco-solvent printer, production time decreases. The colors remain vibrant, and it comes with soft haptic and matte finish. The coating consists of a special adhesive to apply on a wide range of fabrics.

AVAILABLE IN

50 cm x 25 m rolls

RECOMMENDED FABRICS

- 100% Cotton
- 100% Polyester*
- Polyester-Cotton blends

* Test before application!

CUTTING NOTES

You should always test cut prior to any production run. Remember cutter settings will need to be adjusted as your blade ages. Cutting too deep will result in weeding or masking difficulties.

APPLICATION INSTRUCTIONS

- Temperature: 130° C / 150° C
- Time: 10 sec. / 5 sec.
- Pressure: medium (#4-6 on Hotronix®)
- Peel: Hot

ACCESSORIES RECOMMENDED

- CAD-COLOR® MagicMask High Tack
- Grip Cover Sheet
- Coversheet - Non-Sticky
- EZ Weeder®, LED Weeder. LED Pin or Tweezers
- Squeegee
